- DeWind
- Fuhrländer
- Nordex
- Tacke
- SüdWind
- FDV
- DanWind
- Orbital
- Lagerwey

And many more

Please contact us if your turbine is not on the list.

Technology at work for you

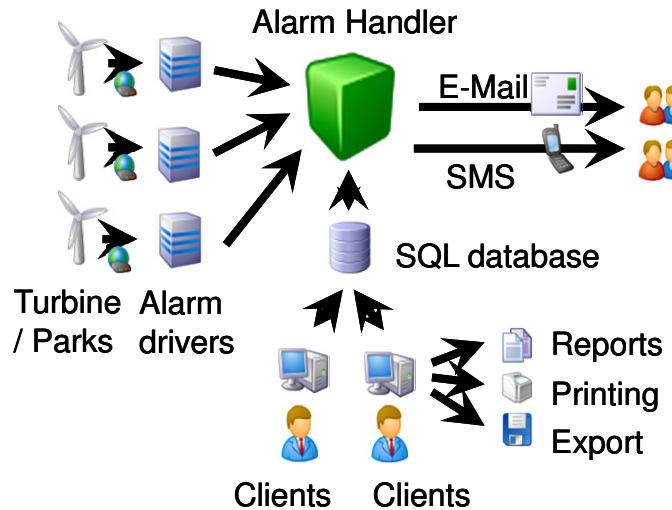

MONITOR ALL YOUR WIND TURBINES 24/7

The Alarm Center monitor and receive alarms from modem or IP based wind turbines. It is designed around an SQL server that stores all alarms and collected data. Alarms can be forwarded either manually or automatically to individual users .

The Alarm center can collect data for further data mining and reporting using the report generator where custom SQL queries can be designed.

DIRECT ACCESS VIA ANDROMEDA TO IP BASED TURBINES

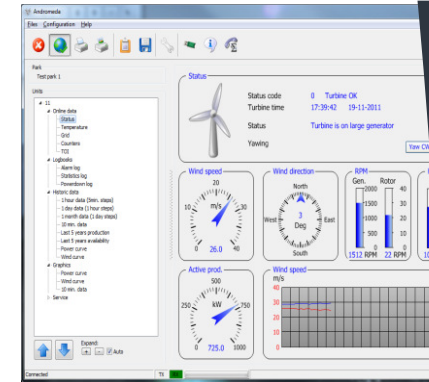

Even though the Alarm Center allow the customer to receive alarm calls via SMS and E-Mails, is it also possible to access the turbines via Andromeda. This allows the owner or service providers to have full control over the turbines directly over IP. The Alarm Center also allows for multiple users to access the same turbines simultaneously .

Flexible solutions for your business needs

LICENSE BASED SYSTEM, CUSTOMIZED FOR YOUR NEEDS

The Alarm Center can be purchased with one or more protocols for different turbine manufactures and type.

KEY FEATURES

- SQL server based
- Multi user system
- Distributed system
- Supports a wide range of turbine types
- Multiple modem handling
- Modem Caller ID
- Logs all incoming calls (both failed and completed)
- Daily line and com. check
- Daily data collection
- Park configuration
- Individual users
 - Assign events to users
 - Open/ In progress / Closed
- Duty-rosters for:
 - Automated E-Mail service
 - Automated SMS service
- Report generator

Connection

The Alarm center can monitor turbines both via classic modem lines and via TCP/IP

Dialup turbines are checked on a daily basis.

Online (IP based) turbines are monitored every 30 sec.

24/7 monitoring

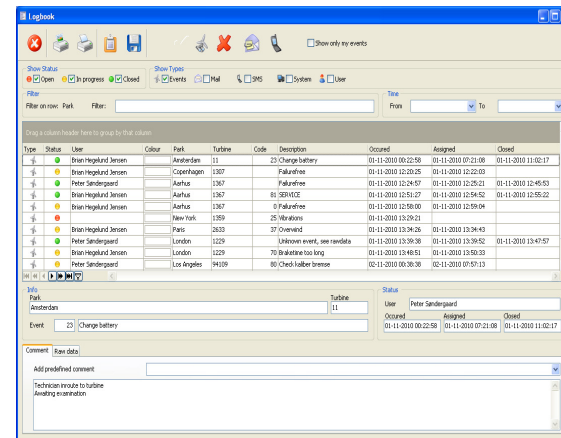

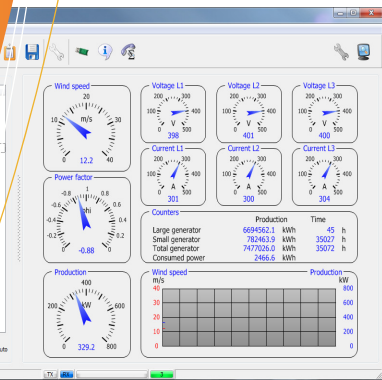

The Alarm Center solution monitors the turbines 24/7 and reports all alarms or loss of connection immediately via SMS or E-Mail

Platform support

Andromeda can run on a wide range of windows operating systems starting from Windows XP to Windows 8.

It supports both 32 and 64 bit platforms
