

ANDROMEDA

The universal SCADA Client

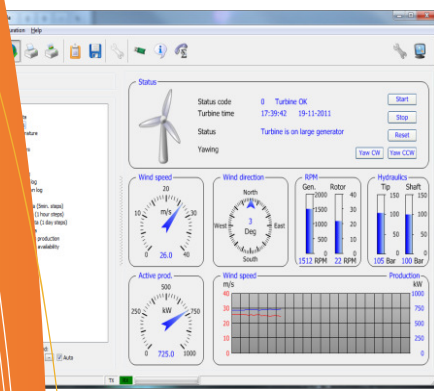

We specialize
in SCADA
software for
Wind turbines

Technology at work for you

CONNECTING ALL YOUR WIND TURBINES IN A SINGLE PRODUCT

The Andromeda client can connect to turbines either via standard modem or via IP depending on the hardware in the turbine/park.

If the turbine is equipped with modem, will you have to use a modem together with Andromeda to get in contact with turbine and if the turbine has been converted to IP or is native IP based can you use Andromeda to connect directly to the turbine.

Flexible solutions for your business needs

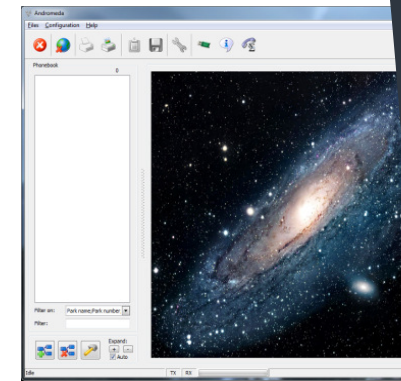

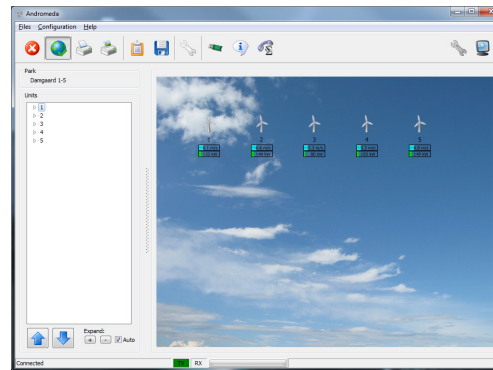

LICENSE BASED SYSTEM, CUSTOMIZED FOR YOUR NEEDS

Andromeda can be purchased with one or more protocols for different turbine manufactures and types. Protocols can be added as wished via the internet.

PRE DESIGNED DATA PRESENTATION

Andromeda comes with a predesigned set of windows that presents all data from the turbines.

Screens are designed for each turbine model allowing for the individual sensor configurations for each manufacture and models

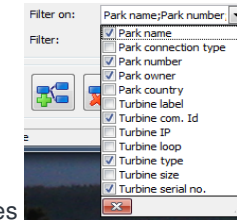

FLEXIBLE PHONEBOOK

Andromeda comes with a phonebook system that allows you to group turbines into individual phonebooks.

The phonebook supports an easy to use export and import functionality where individual or a selection of parks can be exported or imported directly.

The phonebook is also designed to ease the daily operation. Searching and finding parks in a large list is optimized using a highly advanced search system where the same search field is used on multiple records simultaneously.

Connection

Andromeda can use all types of communication lines, ranging from classic telephone lines to modern TCP/IP connections.

It uses a highly flexible phonebook that can be configured to access a wide range of wind turbines and manufactures.

The phonebooks supports import and export of single or multiple parks.

Data presentation

Andromeda offers access to all data available in the turbine.

This ranges from online data, historical data, commands as well as service functionality.

Platform support

Andromeda can run on a wide range of windows operating systems starting from Windows XP to Windows 8.

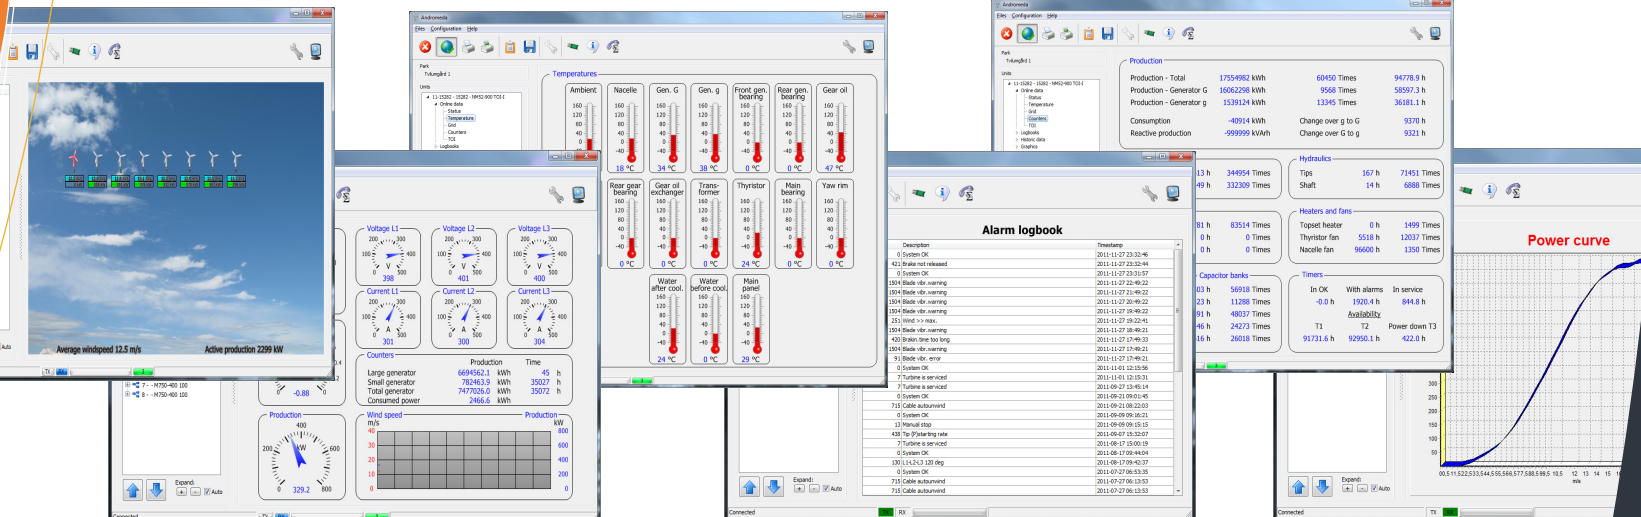

It supports both 32 and 64 bit platforms

Access to a wide range of turbine types:

- Nordtank
- NEG-Micon
- Micon
- Vestas
- Wind World
- Wincon
- HAG
- Jacobs
- Bonus / Siemens
- Repower
- DeWind
- Fuhrländer
- Nordex
- Tacke
- SüdWind
- FDV
- DanWind
- Orbital
- Lagerwey

And many more

Please contact us if your turbine is not on the list.
