- Fuhrländer
- Nordex
- Tacke
- SüdWind
- FDV
- DanWind
- Orbital
- Lagerwey

And many more

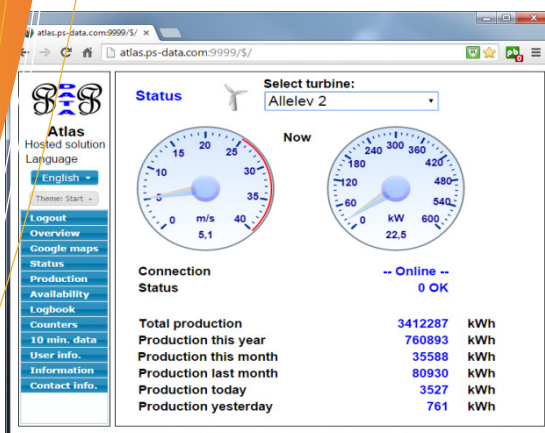

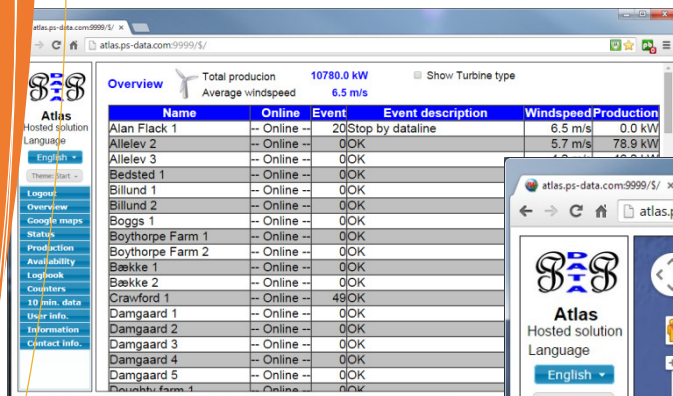

Please contact us if your turbine is not on the list.

Flexible solutions

ACCESS TO TURBINES VIA ANDROMEDA OR WEB CLIENT

Your turbines can be access in two different ways. Either via our full feature SCADA client Andromeda or via our WEB client that gives access to collected historical data and present status..

Technology at work for you

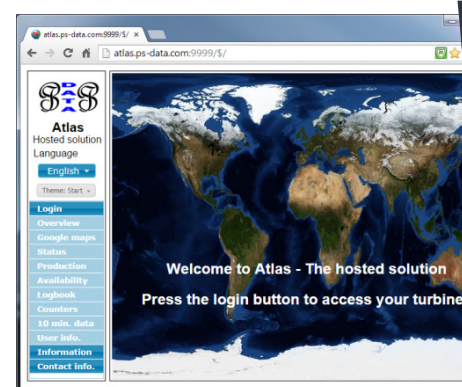

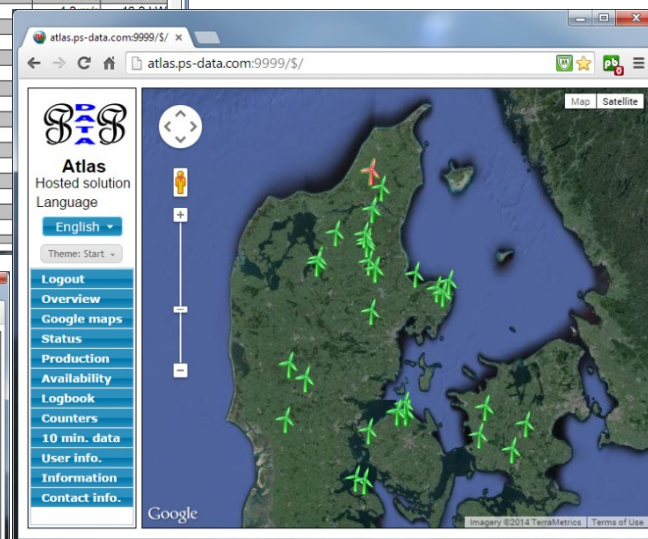

Atlas - The hosted solution lets you get rid of your old modem based dialup systems and migrate to a TCP/IP based solution that allows you to receive E-Mail alarms.

The hosted solution gives you 24/7 monitoring of your turbines including Email alarms on errors and loss of connection.

WEB ACCESS TO HISTORICAL AND ONLINE DATA

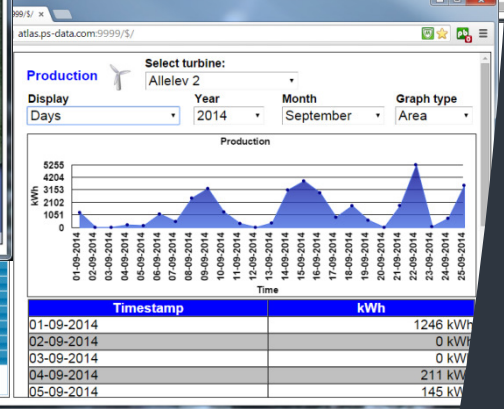

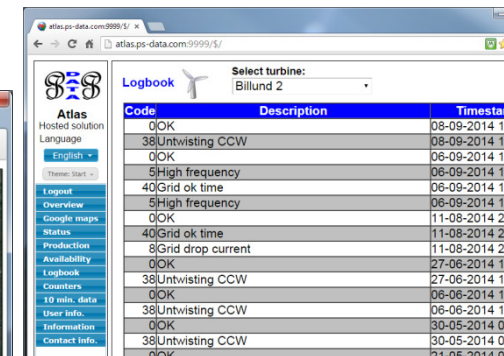

Through our web base client can the turbines status and historical data be accessed. The Web based client works on Windows, Mac and mobile devices like tablets and mobile smartphones.

In the web interface can you see the present status of your turbines and access the collected historical data such as production, availability logbooks and counters.

FULL ACCESS VIA ANDROMEDA

Even though the hosted solution allow the customer to receive alarm calls via E-Mails, is it also possible to access the turbines via Andromeda. This allows the owner or service provider to have full control over the turbines directly over IP. The hosted solution also allows for multiple users to access to the same turbines simultaneously.

Key features

- No need for land based PSTN phone lines
- No need for modems for client access
- Display all turbines in one overview
- 24/7 monitoring
- Reports loss of connection
- E-Mail alarms
- Windows SCADA client: Andromeda supports all windows operating systems.
- WEB based client for historical data and turbine status

24/7 monitoring

The hosted solution monitors the turbines 24/7 and reports all alarms or loss of connection immediately via E-Mail

Platform support

Andromeda can run on a wide range of windows operating systems starting from Windows XP to Windows 8.

It supports both 32 and 64 bit platforms
